## PROFILE

Entry-level Frontend Developer proficient in **JavaScript and its libraries**, boasting a robust portfolio of UI projects that prioritize user engagement. Committed to ongoing professional development, I possess a keen eye for **responsive design** and **accessibility standards**. Seeking opportunities to collaborate within forward-thinking teams and contribute innovative solutions to **web development** challenges. Dedicated to staying informed of industry trends and best practices, I am poised to make a meaningful impact in the realm of frontend development.

## PROJECTS MADE SO FAR

### Obys Agency Home Page

Mar 2023 - Present

- Spearheaded dynamic home page development for Obys Agency, integrating **Locomotive JS** and **GSAP** for engaging animations, enhancing user interaction.
- Employed **Shery JS** to showcase Obys Agency's award-winning designs, prioritizing seamless UI/UX and captivating visuals.
- Leveraged advanced **JavaScript libraries** to meticulously craft a polished user interface, strategically minimizing reliance on **HTML and Bootstrap CSS** for streamlined structuring and styling.

### Significo Web Home Page

Jan 2024 - Feb 2024

- Conceptualized and developed the Significo Home Page personal project, featuring seamless theme transitions and reversible scroll-triggered animations using **GSAP** and **ScrollTrigger** JS libraries.
- Demonstrated creativity and proficiency in animation, crafting captivating visual effects to enhance user engagement and navigation flow.
- Utilized **Bootstrap** and **Tailwind CSS** for meticulous styling, ensuring faithful replication of the original design.

### Ray Ban Concept Home UI

Nov 2023 - Dec 2023

- Designed and developed a **conceptual** home page for Ray Ban, featuring interactive image animations using **Shery JS** for mouse hover effects, enhancing user engagement and visual appeal.
- Implemented an interactive and **dynamic background** with a **gooey ball effect**, triggered by hover actions, and seamlessly transitioning background images upon click.
- Demonstrated creativity and innovation by crafting an infinite animation loop, showcasing adaptability and proficiency in frontend development techniques.

### College Lost & Found Section

Sept 2023 - Oct 2023

- Led a team to develop a comprehensive Lost & Found section for college website, comprising **multiple pages** and a **login interface**.
- Spearheaded frontend development for the project, prioritizing **user experience** and intuitive navigation.
- Oversaw creation of login page and various section pages, demonstrating **proficiency** in frontend design for large-scale projects.
